Autosol, Cybersol, ETL Feb - 2027

Experience a unique distinctive exchange program in the fields of Advanced Automobiles, Automation, Mobility. Advanced Artificial Intelligence, Deep reinforcement Learning & Cognitive Robotics. Entrepreneurship and Technology Management & Leadership. This program brings together leading organizations and universities from India and Germany, providing a platform for knowledge sharing, cultural immersion, and professional growth.

Training in Germany by Center of Excellence for Leadership & Management Steinbeis Center of Sustainable Technology and Management, Export-Akademie Baden-Württemberg

This program is also providing a cutting-edge opportunity to visit automobile manufacturing factories like Mercedes Benz / Porsche and their technical museums along with a cultural tour to various German cities and Paris.

FH Aachen University

The MASCOR Institute focuses on research and technology development in the areas of "Mobile Autonomous Systems" and "Cognitive Robotics". While the first research focus mentioned deals with questions of navigation, localization, environmental perception, and control of mobile systems in structured and unstructured environments, the second field of work covers the area of the control of robot systems, in which intelligent algorithms and methods can be used to solve problems of situational interpretation, decision-making, interaction with the environment and Realization of autonomous functions in different application scenarios is to be solved.

Indo Euro Synchronization

"Indo-Euro Synchronization (IES) bridges the gap between Indian and European Academic and business ecosystems, facilitating a unique technology exchange. Through Autosol, IES fosters collaboration among universities, companies, and students from both regions, paving the way for a brighter technological future."

Autosol, Cybersol, ETL the flagship program of Indo Euro Synchronization (IES), offers a unique and enriching Internship experience for students. In partnership with leading Indo-European organizations, Autosol provides cutting-edge industrial exposure, complemented by cultural immersion, empowering Students with a holistic learning experience.

Our mission is to shape a brighter technological future by fostering closer collaboration and knowledge exchange between universities, companies, supporting organizations, and students from India and Europe, thereby bridging the gap and driving innovation.

At Indo-Euro Synchronization, we believe that three key elements are essential for closer Indo-European collaboration and common development: Educational programs, research partnerships, and cluster collaborations.

Our educational programs, executed in partnership with leading European universities, provide Indian students and professionals with a unique opportunity to study abroad. Through these programs, participants gain:

- Comprehensive insights into Europe's industrial landscape
- Enhanced professional skills and knowledge
- Improved career prospects through additional education and training

By fostering academic and professional exchange, we aim to bridge the gap between India and Europe, driving innovation and growth.

Terms & Conditions

1. Content and faculty provided in this document are subject to changes as per the availability of seats and other arrangements; in all cases, the decision of organizers is final and binding on the participants.
2. Participants should pay the fees on time. The late fees are chargeable owing to an increase in rates of various services by the service providers (trains/buses/hotels etc.) As we go closer to the program dates. Waiver of late fees is not possible owing to these reasons.
3. The participants shall receive the VISA Invitation Letter after submitting the application along with all other formalities. However, organizers are not responsible for Visa and Associate fees/expenses, Health Insurance, and other related expenses.
4. **Entrance Tickets:** All the entrance tickets for Technical Museums and/or Trade fares and all other required entrance tickets during the trip as per the schedule, shall be organized and paid for by the organizers. But this is not applicable for PARIS tour. Please contact the organizer for more details about the PARIS tour fee coverage.
5. **Accommodation:** Complete accommodation for the program is covered in shared mode in student/ youth hostels. Separate accommodation shall all be provided for males and females. Decent student accommodation will be arranged in Frankfurt and Stuttgart according to the program schedule. Decision of the organizers on accommodation arrangements is final and binding.
6. **Travel in Germany:** Every participant would be traveling a considerable distance between the destinations to cover industry visits, cultural tours, and other activities as per the schedule. Best available comfortable group traveling options by local trains/buses shall be provided as per the European standards. All travel starting from the arrival airport till the departure airport at the end of training shall be escorted in the group by the representatives of the organizers. However, it is expected that the participants behave decently within the group as well as with the people of the visiting country. Any uncalled-for behavior (including involvement in any form of illicit drugs or sex or anything illegal as per the laws of India or the host country may result in immediate expulsion of the participant and departure of the candidate from the country. The decision of the organizers shall be final and binding in all cases. Participants who wish to travel for a cultural exchange to Paris need to pay € 200 Extra. (Rs. 18,000/- approx.). Please look into terms & conditions for detailed information.
7. **Cancellation Policy:** If the student is unable to attend the program due to any valid reason, his/her application is automatically considered for the immediate next program. If the student is unable to attend two consecutive times due to valid reasons (like VISA rejections), his/her fees shall be refunded after deducting any bank transfer charges and any other booking cancellation charges. Application fee can NOT be refunded once Applicant crossed the 7 days of the application process; within these 7 days, applicants are communicating with our team members in order to get the entire clarifications.
8. Industry tours and training content will be binding and there might be changes according to the resource availability.
9. The application will be forwarded to the next AutoSol program if the entire program does not have a count of more than or equal to 35 participants.

Please contact us to know more details. You can always reach us on www.giipgermany.com for further clarifications.
